

Flush Style Fittings

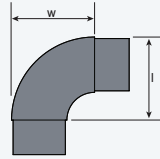

Brass fittings are cast to match alloy C27000 yellow brass tubing. Stainless steel fittings are cast to match type 304 stainless steel tubing. Finishes are as noted. These fittings are designed to be used with .050" wall tubing. They may be assembled using adhesive or brazed/welded to the tubing.

For custom bending and pre-fabricated assemblies, contact Wagner directly. Dimensions are approximate. Please confirm prior to installation.
