

Flush Weld Wall Returns

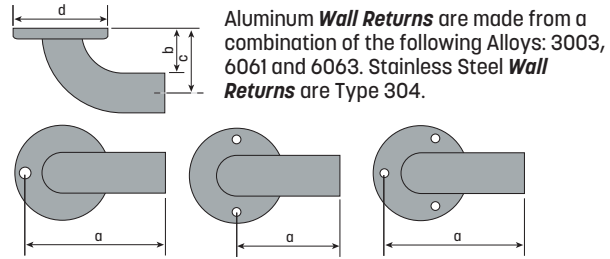

The following options are available on special order - contact rfq@mailwagner.com:

- Polished, galvanized or anodized finishes.
- **Returns** for 1.25" and 2.00" OD **Tubing**.
- Variations in the center-line projections.

Wall Returns for 1.50" **Tubing** are designed to meet the 1991 ADA guidelines requiring a 1 1/2" clearance between the wall and **Handrail**. Newer ICC, NFPA, ANSI and the 2010 **ADASAD** now note this as a *minimum* clearance. Confirm your local requirements before specifying any **Wagner** product. Refer to page 226 for code and accessibility information.

Flush Weld Wall Return with One 3/8" Hole
