

## Slip-Fit Stair Rail End

**Finish your rails with one weld instead of three.**

Rail Ends are untrimmed on one end with a welded **Flange** at the **Wall Return** end. Confirm actual dimensions upon receipt. Choose a "c" dimension to match your **Slip-Fit Handrail Bracket** selection. The stair angle must be trimmed as required for the stair slope. The stair rail end has a 12" tangent to center. If extensions are not required for your application, use a **Wall Return** shown at the bottom of this page.

**Wagner** will also custom trim to your dimensions.

Supplied in mill finish. Galvanizing, anodizing and polished finishes are available upon request; contact [rfq@mailwagner.com](mailto:rfq@mailwagner.com).

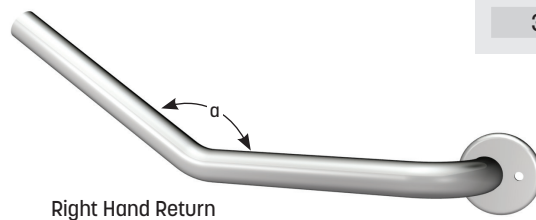

Made in MILWAUKEE

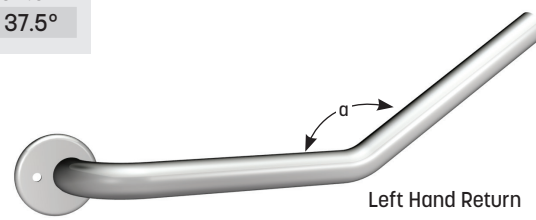

### Angle Range Selector

Determine your stair angle then select **Rail Ends** as follows:

5°	4° to 6°
27°	25.5° to 28.5°
30°	28.5° to 31.5°
33°	31.5° to 34.5°
36°	34.5° to 37.5°

Right Hand Return

Left Hand Return

### Stair Rail End

Specify Right Hand or Left Hand when ordering. Looking up a stair, the **Handrail** to your right would be considered a Right Hand bend while the one to your left will be a Left Hand bend. Produced from 1/4" Schedule 40 Pipe (1.66" diameter with a .140" Wall).
